PROFESSIONAL EXPERIENCE

SEO Specialist — Unique Company | May 2024 – Present

- Manage the website's SEO activities across technical SEO, on-page optimization, content optimization, keyword research, and competitor analysis.
- Conduct recurring SEO audits to identify technical issues related to crawling, indexing, site speed, mobile usability, and overall search visibility.
- Use Google Search Console and Google Analytics 4 to monitor organic performance, search queries, landing pages, user behavior, and opportunities for improvement.
- Perform keyword research and SERP analysis to identify relevant, high-intent search opportunities and support content planning.
- Analyze competitors' organic visibility, content themes, keyword targeting, and SERP presence to inform SEO priorities.
- Write, edit, and optimize SEO content to improve keyword relevance, search intent alignment, page structure, and organic visibility.
- Act as GTM Engineer alongside SEO responsibilities, connecting SEO and content strategy to go-to-market planning and business growth initiatives.
- Build and enrich prospect and customer data lists using tools such as Apollo.io and Clay, and run cold email outreach campaigns through Smartlead to support pipeline and business growth.
- Collaborate with content and business teams to align SEO and GTM recommendations with business goals and broader growth initiatives.

Odoo Implementer Intern — Mdarj | April 2026 – Present

- Support the implementation and configuration of Odoo modules for client businesses.
- Work with Purchase, Sales, Inventory, CRM, Accounting, Projects, Timesheets, and Documents modules.
- Help understand business workflows and translate operational requirements into organized ERP processes.

Freelance Graphic Designer & Content Creator — Self-Employed | 2018 – Present

- Create brand and marketing materials, including logos, social media posts, brochures, product labels, signage, and business cards.
- Produce and edit short-form videos, Reels, and paid social media advertisements for client marketing activities.
- Use Adobe Photoshop, Adobe Illustrator, Canva, Adobe Premiere Pro, Filmora, and Camtasia to deliver visual content.
- Combine visual communication, copywriting, and platform-specific content formats to support social media marketing goals.

Supermarket Manager — Awad Yehia Super Market | 2016 – 2024

- Managed daily retail operations, supplier relationships, staff supervision, customer service, inventory activities, and business administration.
- Built and maintained an Excel-based accounting system covering daily journal entries, income statements, and balance sheets.
- Operated and maintained POS and business systems, including Odoo, Loyverse, and Sales Manager cashier application.
- Managed the business Facebook and WhatsApp accounts for customer communication, promotions, and local marketing.
- Developed practical experience in performance reporting, vendor negotiation, process coordination, and operational problem-solving.
